AKASH YADAV

Software Developer

Biratnagar, Nepal | akashyadav.iiita@gmail.com | +977 9825726777 | linkedin.com/in/akash-yadav777

PROFESSIONAL SUMMARY

Senior Frontend Developer with 7+ years of experience building scalable, high-performance web applications. Expert in React.js and modern JavaScript (ES6+) with strong backend integration skills. Proven track record of improving performance, reducing deployment time, and delivering measurable business impact across international remote teams.

PROFESSIONAL EXPERIENCE

Frontend Developer

IclickSee | London, UK (Remote) | September 2021 - Present

- Led frontend development for production-grade web applications, delivering scalable, high-performance user interfaces across multiple platforms.
- Collaborated with cross-functional teams to plan, architect, and deliver features, reducing turnaround time and accelerating release cycles.
- Researched, prototyped, and integrated modern tools and APIs to solve real business problems and enhance application capabilities.
- Streamlined codebases and modularized components, ensuring seamless UI integration and reducing maintenance overhead.

Frontend Engineer

IT Offer | Copenhagen, Denmark (Remote) | June 2020 - September 2021

- Directed frontend initiatives across 5+ concurrent projects, ensuring timely delivery.
- Implemented CI/CD pipeline with GitHub Actions, Docker containerization, and automated testing workflows, significantly decreasing deployment time.
- Translated complex design systems into reusable frontend components, accelerating feature delivery and improving UI consistency.

Full Stack Developer

Indesign Media Pvt. Ltd. | Biratnagar, Nepal | June 2019 - May 2020

- Developed full-featured web applications across frontend and backend layers using Laravel and MySQL.
- Improved user engagement by 25% through implementation of interactive JavaScript and GSAP animations
- Integrated REST APIs and supported full SDLC lifecycle from requirements analysis to deployment.
- Contributed throughout the software development lifecycle, from requirements analysis and development to deployment and post-release support.

Frontend Developer

Australian Mobile Systems | Sydney, Australia (Remote) | August 2018 - April 2019

- Developed responsive web UI using HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility and optimal performance.

- Integrated backend APIs supporting core system functionalit..
- Translated design mockups into reusable, maintainable UI components following best practices.

Backend Developer
Pulsetrack Electronics Pvt. Ltd. | Bengaluru, India | July 2017 - July 2018

- Developed real-time delivery tracking system integrated with Google Maps API, monitoring 200+ vehicles.
- Built robust backend services using PHP and MySQL for data processing and management.
- Followed Git-based collaboration workflows, including feature branching and pull requests for code review.

Trainee - Web Development
Nepal Telecom | Biratnagar, Nepal | January 2014 - February 2014

- Completed hands-on frontend development training under Project "Meet," working with HTML, CSS, and JavaScript.
- Developed and refined reusable UI components for internal web applications, improving usability and interface consistency.
